

Proposal Grading Rubric

Engineering Team:			
Aspect	Features	Points Earned	Comments
Title: 1 (bonus) pt	Concise description of proposal		
Contact Information: 1 (bonus) pt	Names, titles, campus (department) address and email		
Abstract: 5 pts	Concise summary of entire proposal; emphasis on results.		
Introduction 5 pts	Introduction to document and essentials of project. <i>Is persuasive.</i>		
Background: 10 pts	(Problem definition) Lit review of particular real-world application; justification for project. In-text references.		
Proposed Work: 30 pts	(Solution to the problem.) Circuit topology, supply voltage, upper limits, outputs; schematic Included. Features and benefits of solution here. Visual aids.		
Preliminary Results: 15 pts	Design & simulation accomplishment. Visual aids.		
Qualifications 5 pts	Persuasive team qualifications (coursework and previous experience) related directly to proposed work		
Cost Analysis: 15 pts	Price per unit/price per 1000; cost of labor and design.		
Conclusion: 5 pts	Brief wrap up of document/call to action. Is persuasive.		
References: 5 pts	Sources related to the background section and cost estimate (in text and reference section).		
Format: 5 pts	Header on pages 2 through last; proper integration of tables/figures/equations; serif font for text.		
Total Points Earned out of 102:
